

2023 MATCH Results

Match Day is an important day for each graduating medical student as well as a focus of celebration for each medical school. Across the United States, medical students simultaneously learn the locations of the residency programs in which they will begin their graduate medical education training. This year, as in the past, we are extremely proud of our Fredrick P. Whiddon College of Medicine at the University of South Alabama students and their success in securing excellent residency positions. Their success reflects years of hard work on their part and also speaks to the quality of the educational training provided to them here in the Whiddon College of Medicine.
